A Hotel with Tradition

A Radon Spa Surrounded by Nature

The uniqueness of Jáchymov Spa lies in the exceptional effects of water with a high concentration of radon, in the respected methods of Czech physical therapy, and in the individual approach of the spa's physicians.

Jáchymov Spa – The Most Effective Radon Spa in Europe

Jáchymov is located almost 150 km north-west of Prague close to the Germany border. The history of the town is connected with the mining of silver, tin, and uranium.

In 1520, the Royal Mint at Jáchymov began to coin the silver tolar, the coin which later lent its name to the US dollar.

The spa in Jáchymov was established in 1906 as the first radon spa in the world. The unique local radon water effectively helps treat **movement disorders, diseases of the nervous system, diseases of the circulatory system, skin disorders, and diabetes.**

There is no other European spa with such high radon concentration in natural mineral water. Thanks to this fact, our spa is the most effective radon spa in Europe.

The radon water is drawn from four springs at the depth of 500 meters, on the 12th floor of the Svornost Mine. This mine is the oldest, still fully functioning mine in Europe and all of the 21 mining workers are employees of our spa.

A worldwide rarity, which we are offering in Jáchymov, is a special treatment the so-called "Jachymov Schachteln", a special Brachy-Radium-Therapy.

A Palace from the Era of Monarchies

This impressive Neoclassical Palace in the Viennese style is surrounded by a picturesque forest park. Already at the time it was constructed in 1912, it ranked among the best spa hotels in Europe. The elegance of this historical gem of Jáchymov is underscored by its romantic balustrades and original architectural details, which the hotel preserved even during its reconstructions in 1998 and 2016.

During the period of the First Republic, this protected cultural monument was the pride of the whole Europe, and welcomed such famous guests as T. G. Masaryk, Marie Skłodowska Curie, Richard Strauss, Max Švabinský, Edvard Beneš, or Baron de Rothschild.

All Services Under One Roof

Our focus and expertise is on rehabilitation medicine, but we also offer relaxation or short-term wellness programmes. You can upgrade your stay in Jáchymov by purchasing procedures of your own selection.

All procedures and treatments are made available even to severely disabled guests, and all of these treatments and activities will be offered directly in the hotel. We also provide a 24-hour health service.

Guests can also use the swimming pool, several types of saunas, a whirlpool, a beautician, and a hairdresser's at their disposal.

The hotel is equipped with its own café including an outdoor seating on the terrace. The hotel's master pastry-chef prepares fresh desserts and sweets for the hotel guests, as well as for the public, daily. Of course, we take your leisure time into account at the spa.

The Concierge Service, located directly in the hotel, takes care of your cultural activities, and we are organising concerts, music and dance evenings, or various trips to surroundings near and far, regularly.

We are providing various equipment for rental, e.g. for petanque, nine-pin bowling, mini-golf, or Nordic Walking poles, for guests who are sports aficionados.
