The Czech Republic

ASTORIA ***

Right in the centre of the spa park on the sunny side opposite the Agricola Spa Center a building arose from 1913 – 1918 that was to become today's Astoria complex. In 2002 it underwent a complete overhaul and eight years later it was further equipped with a dining space for all-day meals. It also has a ski and bike depository, which is why the Astoria soon became an attractive place for skiing and family holidays in the summer.

Treatment and wellness

The medical services are fully covered by the Agricola Spa Center, which is about 50 m from the Astoria house. You will also find a wide range of wellness procedures and a modern aquacentre.

Accommodation

Accommodation is possible in category I.A double and single rooms. The rooms have a bathroom with a shower and a WC, a television with satellite programmes, internet, a telephone and a fridge. There is a kids play room and a meeting hall. The hotel reception is located in the Agricola Spa Centre.

Dining

We offer hot buffet.

Welcome to Jáchymov Spa

The Jáchymov radon mineral water improves the quality of life for the ill, relieves their pain, revitalises, puts off the need for an operation and restores health. One of the cornerstones of treatment at Jáchymov is quality remedial care carried out by top physiotherapists.

What do we treat?

- rheumatic illnesses, disorders of the spine and joints
- pre- and post-operational conditions
- we are specialists in the therapy of Bechterew's disease
- disorders of the peripheral nervous system
- gout and certain skin diseases

Apart from the treatment programmes, we also offer short-term relaxation and wellness stays. You can enrich your stay at Jáchymov with procedures that can be bought according to your needs. We have a salt cave, saunas, swimming pools, cultural events, sports, dancing and trips to the surrounding countryside, as well as wonderful cafés to ensure your stay at Jáchymov health Spa is far from boring.

AGRICOLA

The oldest building and a traditional symbol of the spa was built in 1911. It stands in the heart of the spa and ever since it was opened it has provided continuous comprehensive health services and relaxation and therapeutic procedures. The modern balneological facilities or the newly built swimming pool complex will pleasantly surprise you. Everything is perfectly matched with the original interiors.

Guests can choose from many kinds of therapeutic, remedial and relaxation procedures:

- unique radon baths *
- underwater and traditional massage
- aerated, whirlpool and herb baths
- remedial exercises in the swimming pool *
- individual exercises *
- electrotherapy, reflexology massage *
- carbonic baths
- Indian head massage
- paraffin poultices for the hands
- a salt cave
- a cryo-cabin *
- hot stone massage
- manual lymph drainage
- chocolate massage
- a solarium and gym
- acupuncture*
- a hairdresser's and cafe

** You must consult with your physician before purchasing these procedures*

AGRICOLA

The entire offer of curative procedures (including the famous radon baths) can also be used as an out patient.
