The Czech Republic

Welcome to Jáchymov Spa

The Jáchymov radon mineral water improves the quality of life for the ill, relieves their pain, revitalises, puts off the need for an operation and restores health. One of the cornerstones of treatment at Jáchymov is quality remedial care carried out by top physiotherapists.

What do we treat?

- rheumatic illnesses, disorders of the spine and joints
- pre- and post-operational conditions
- we specialise in treating Bechterew's disease
- disorders of the peripheral nervous system
- gout and certain skin diseases

Apart from the treatment programmes, we also offer relaxation and wellness procedures and short-term stays with procedures such as a salt cave, saunas, swimming pools, cultural events, sports, dancing and trips to the surrounding countryside.

Reserve your place in the spa as soon as possible!

www.laznejachymov.cz

RADIUM PALACE**** Spa hotel

Location
